Login

The user accesses the application by completing the application access form: username and password.

He/she may not remember the password and need to restore it, so by accessing the link "*Have you forgotten your password?*" it is possible to recover it and thus log in as a user.

If there is no account associated with the user, i.e. it does not exist, it is possible to create a new one by accessing the link "*Are you a new user?*".

User type: Personal user

Via "You are a new user" you can access the registration form for a new personal user.

In this section you must fill in all the required fields: name, surname, sex, weight, height and address.

In addition to filling in these data, the new user registration is broken down into three sub-sections, which are:

- General Data Register
- School Register
- Medical Center Register

The image shows a registration form interface. At the top right, there is a teal-bordered box containing a horizontal progress bar with four diamonds. The first diamond is orange, while the others are light blue. Below the bar is a large orange diamond icon with a white play symbol. To the right of the icon, the word "Register" is written in a bold, dark grey sans-serif font. Underneath "Register", the words "Personal Data" are displayed in a smaller, lighter grey font. The form itself consists of several input fields: "Name" (text), "Surname" (text), "Sex" (dropdown menu indicated by a downward arrow), "Weight" (text), "Height" (text), and "Address" (text). At the bottom right is a large, orange, rounded rectangular button with the word "Next" in white. The entire interface has a clean, modern look with a white background and a teal border around the main content area.

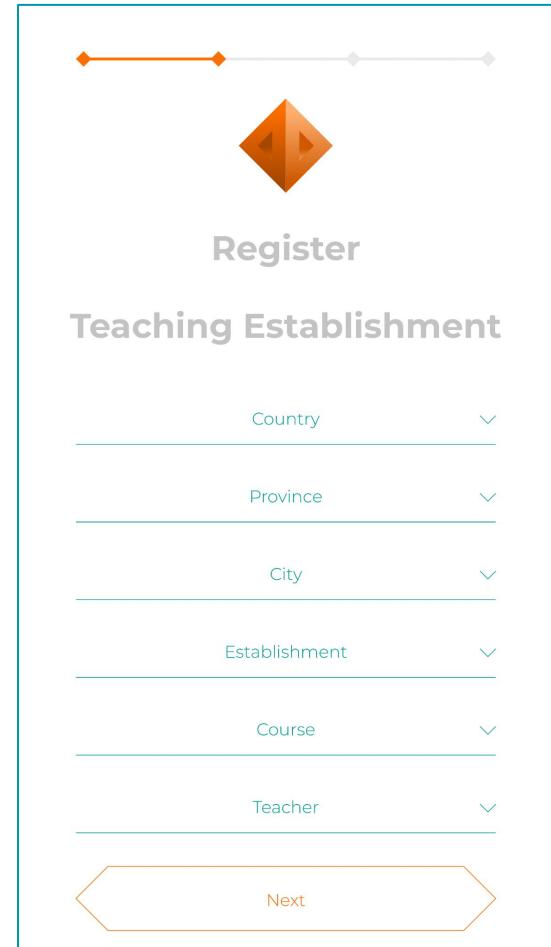

Sign in

User type: Personal user

A Personal user refers to any person who, without being responsible for an educational centre or health centre, performs routes and challenges and registers their progress in the application.

Therefore, the second section "*Educational centre*" is not strictly mandatory, only in the case of students managed by a school, in order to be able to control and monitor the activity that each student carries out thanks to the application.

In this case, the following fields must be filled in: country, province, city, school, course and responsible teacher.

The image shows a registration form titled "Register" with a subtitle "Teaching Establishment". The form consists of six input fields: "Country", "Province", "City", "Establishment", "Course", and "Teacher", each with a dropdown arrow icon. At the bottom is a large orange hexagonal button labeled "Next". A decorative orange diamond shape is positioned above the "Register" title. A horizontal orange bar with three diamonds is located at the top right of the form area.

User type: Personal user

The user must then answer a short questionnaire indicating what their usual mode of transport to school is. If the answer is no, i.e. they do not usually walk, a drop-down menu will appear with the possible ways to get to their school.

- Bicycle
- Car
- Bus
- ...

This point of registration is not compulsory, only in the case of students managed by a school: to keep track and monitor the activity carried out by each student thanks to the application.

A screenshot of a mobile application interface. At the top, there is a horizontal navigation bar with three orange diamond-shaped icons. Below the bar, the word "Register" is displayed in a large, dark gray font. Underneath "Register", the words "Mobility Survey" are shown in a slightly smaller, dark gray font. In the center of the screen, the question "Do you walk to school?" is presented in a teal-colored font. Two orange hexagonal buttons are positioned below the question: the left one contains the word "Yes" and the right one contains the word "No". At the bottom of the screen, there is a large, orange hexagonal button with the word "Next" in white text.

A screenshot of the same mobile application interface, continuing from the previous screen. The top navigation bar with three orange diamond icons is visible. The "Register" and "Mobility Survey" sections are also present. Below the "Mobility Survey" section, the question "Do you walk to school?" appears again in teal. To its right, a larger orange hexagonal button contains the word "No". Further down, the question "What transport do you use to go to school?" is shown in teal. A dropdown menu is open, showing the option "Bike" in black text next to a small downward arrow icon. At the bottom, there is another large orange hexagonal "Next" button.

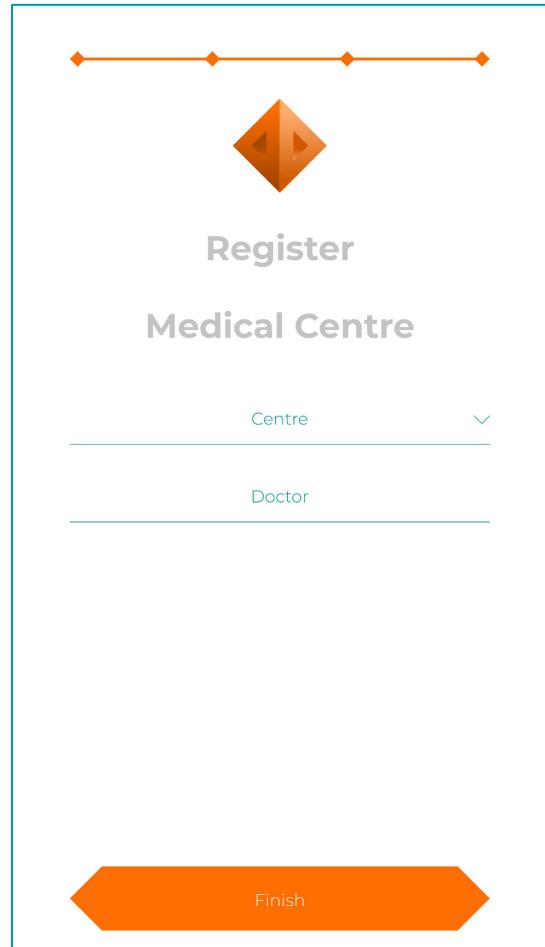

Sign in

User type: Personal user

To complete the registration of a new personal user, the medical centre to which the user is assigned must be filled in.

Once the fields have been completed, the registration is validated and you can enter the application by logging in.

It is not necessary to complete the "*Medical centre*" if it is not the case of students managed by a school, in order to control and monitor the activity carried out by each student thanks to the application.

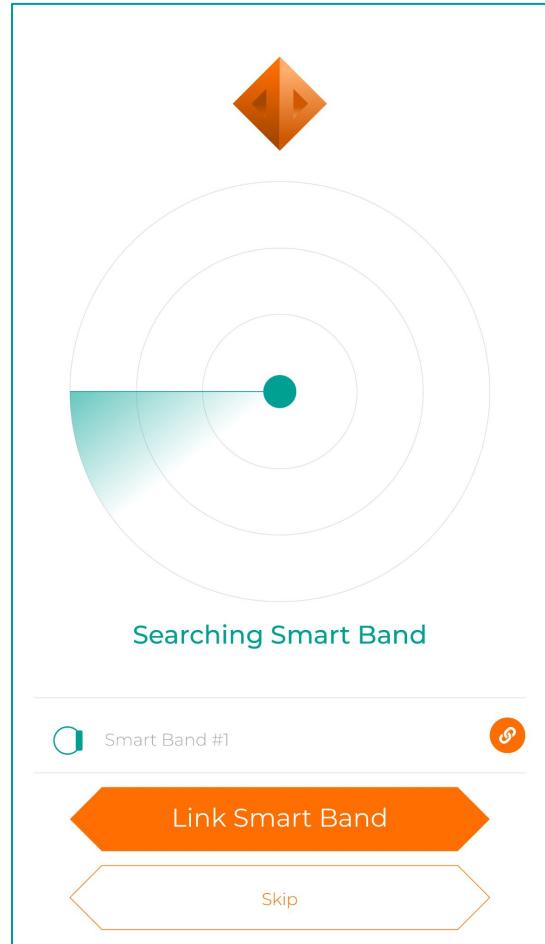

Link Smartband

Once the user is logged in, there is the possibility to link the smartband to the app in order to monitor the user's physical activity.

The smartband search screen appears automatically if no smartband has been paired before.

In this step you will find the available smartbands and you can link your smartband to your application.

The user can skip this step and use the app anyway, although in a limited way, as it will not measure interesting parameters when performing routes and challenges.

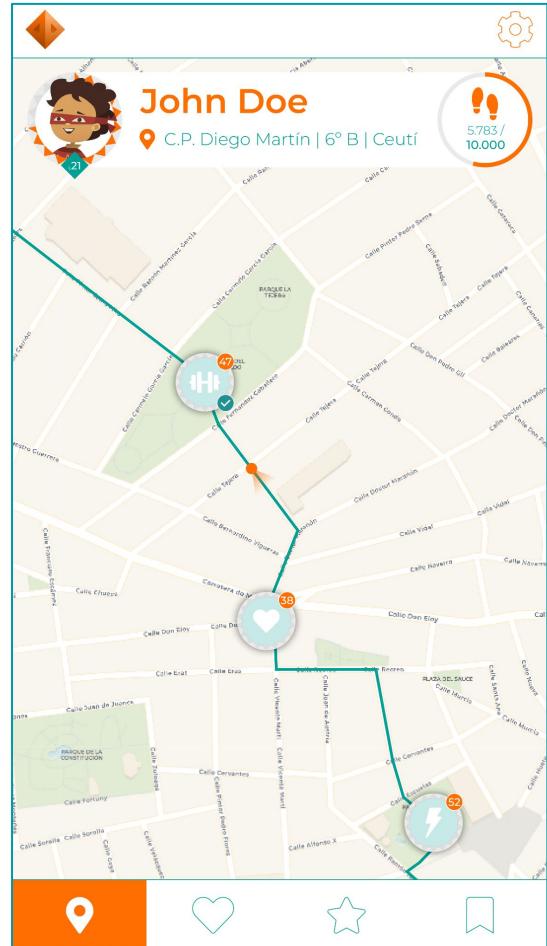

Map

The user accesses the map where he/she can find the route reflected in a more significant colour than the rest of the map, with the intention of guiding the user throughout his/her walk and directing him/her correctly.

The challenges contained in the routes are given by distinctive icons representing their main sport activity (endurance, speed, strength...).

There is a small user information window where it appears:

- Avatar, which may evolve in level.
 - Name.
 - School.
 - Grade.
 - City.
 - Mission in more advanced course, in this case to achieve 10000 steps.

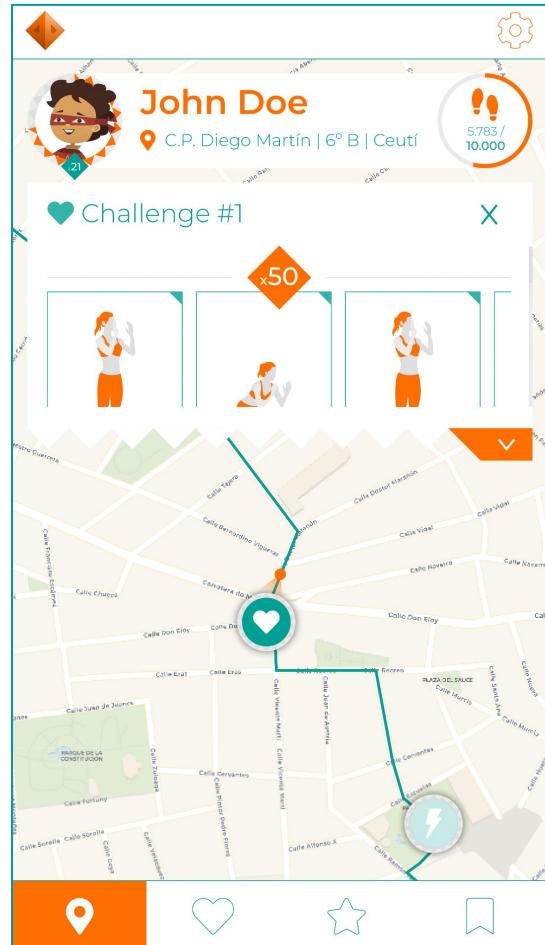

Map - Selected Challenge

The user can click on any challenge to view its information, although for this mission to be active the user must be located close to it.

Each challenge will be accessed when the range of proximity to it with respect to its location is small. It is then when a minimised tab with the challenge will be displayed, so that the user can perform it.

It is necessary for the user to fully open the "▽" icon to perform the challenge and monitor their physical activity.

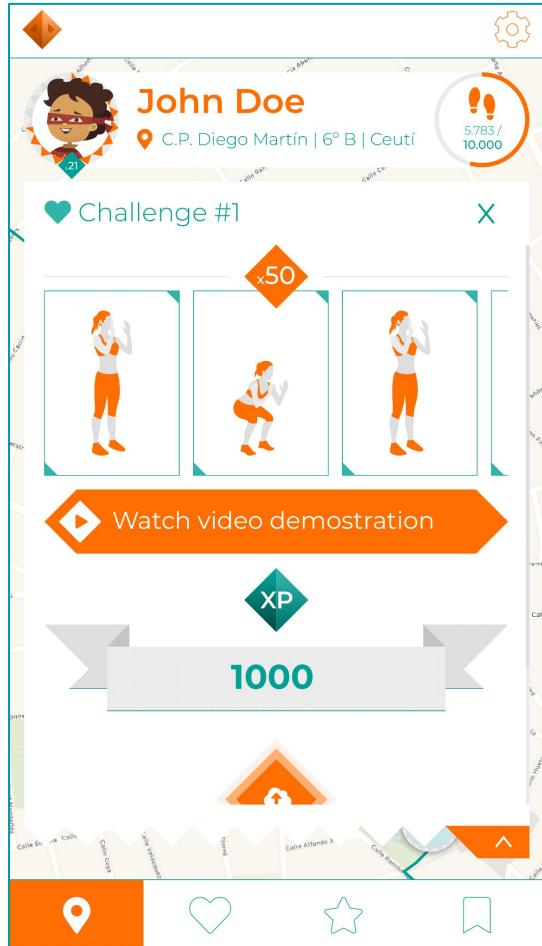

Map - Expanded Challenge

In the image, the information displayed inside the window of a challenge once expanded would be:

- Title of the exercise
- Number of repetitions or time the user should do this challenge.
- Descriptive images of the exercise.
- Access to a demonstration video.
- Reward: experience that the user will gain if he/she performs the exercise.

Only if the wristband detects that the user is performing the exercise, it will count and verify that the challenge has been completed.

Map - Expanded Challenge

Once the challenge is completed, the user has the option to share a photo, to share with the rest of the users their experience in this challenge.

After deciding whether or not to share the moment, the reward will be obtained and the application will recalculate the user's experience.

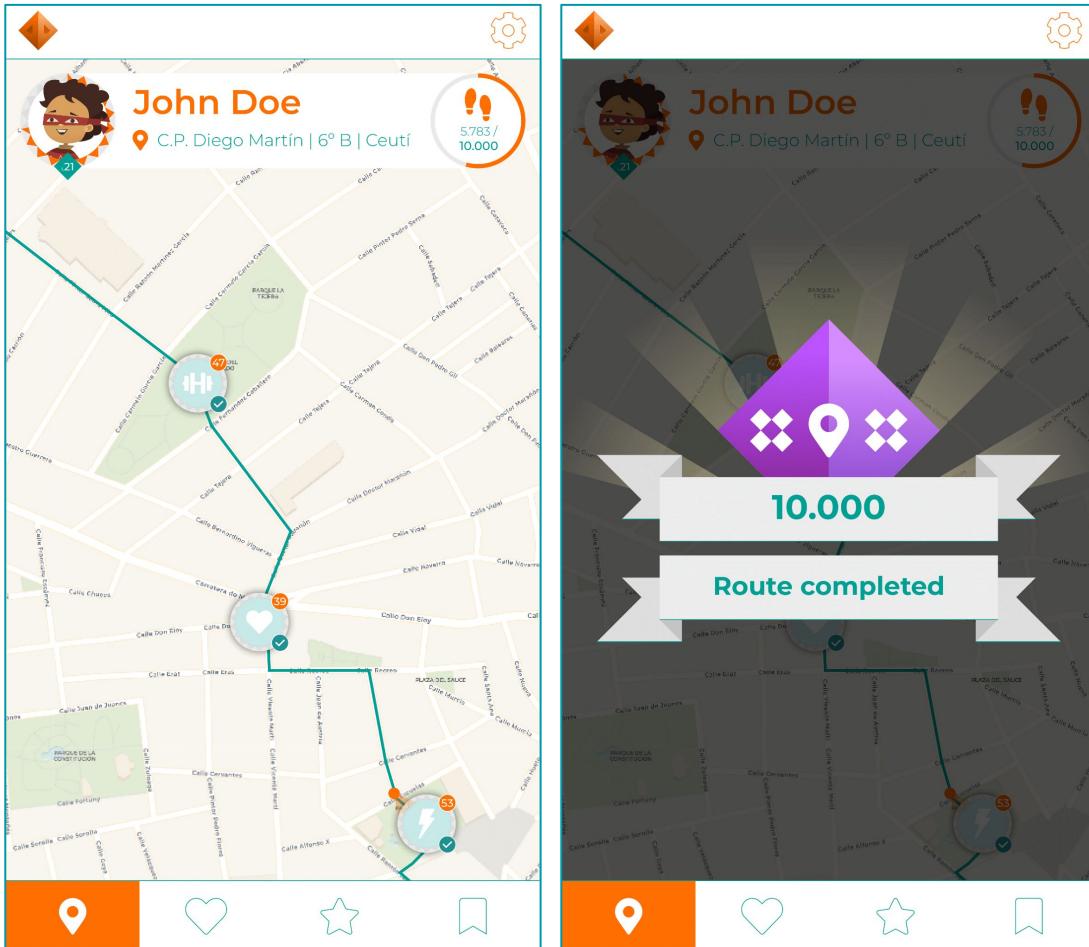

Map - Expanded Challenge

Once the route is finished with all the challenges completed, the user will get a reward for it.

Otherwise (if any challenge is missing), no reward will be given.

The user can go back on the map to complete incomplete challenges.

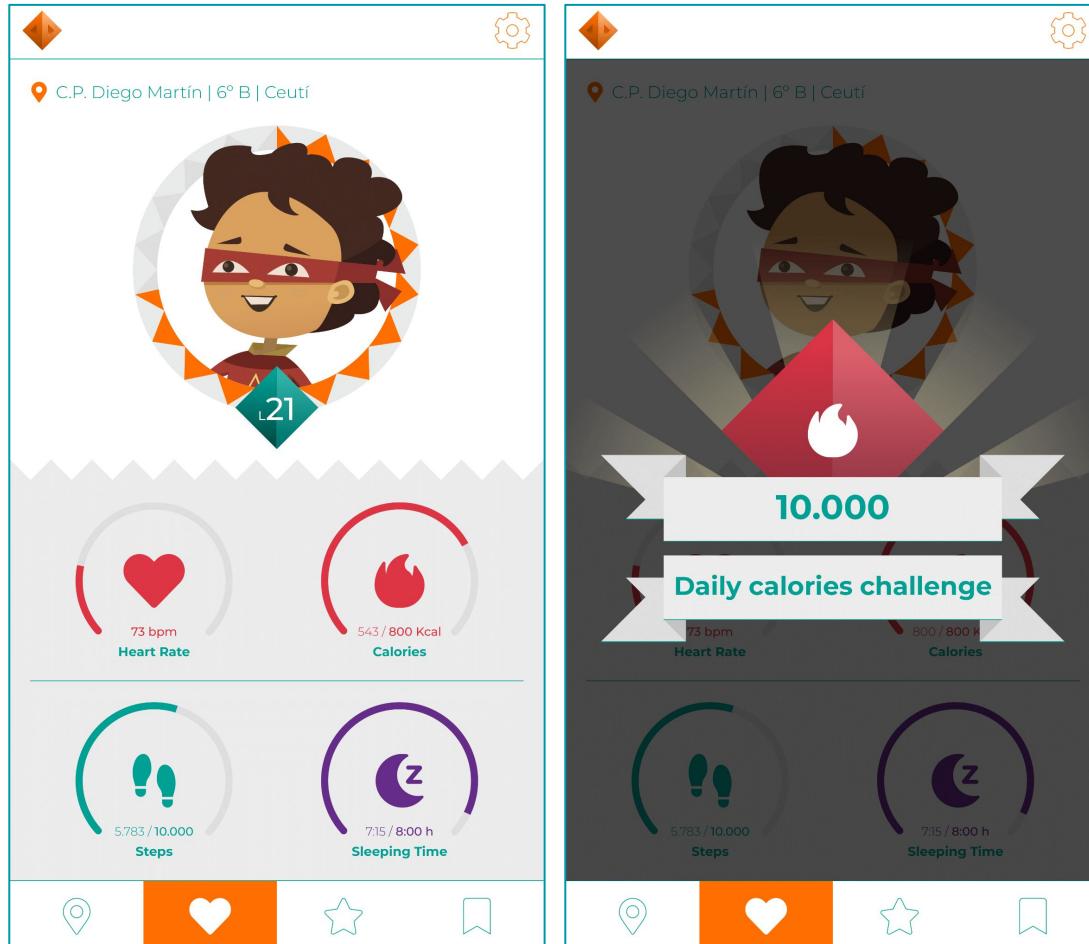

User profile

In the user's profile, the data from the smartband can be viewed during exercise:

- Heart rate
- Calories burned
- Steps taken
- Hours of sleep

When a field is covered by the assigned colour, for example the "Calories" field, you will get a reward for having burned the required calories that day.

Profile - Missions and achievements

This application scenario allows the user to visualise two sections, which will inform him about his daily progress and progress within the application:

Daily missions:

- Steps completed so far.
- Endurance challenges completed.
- Skill challenges completed.
- Strength challenges completed.

Achievements

- Routes completed

Settings

The user can reset his or her limit of steps to be taken during a day, as well as expected calories to be burned during a day.

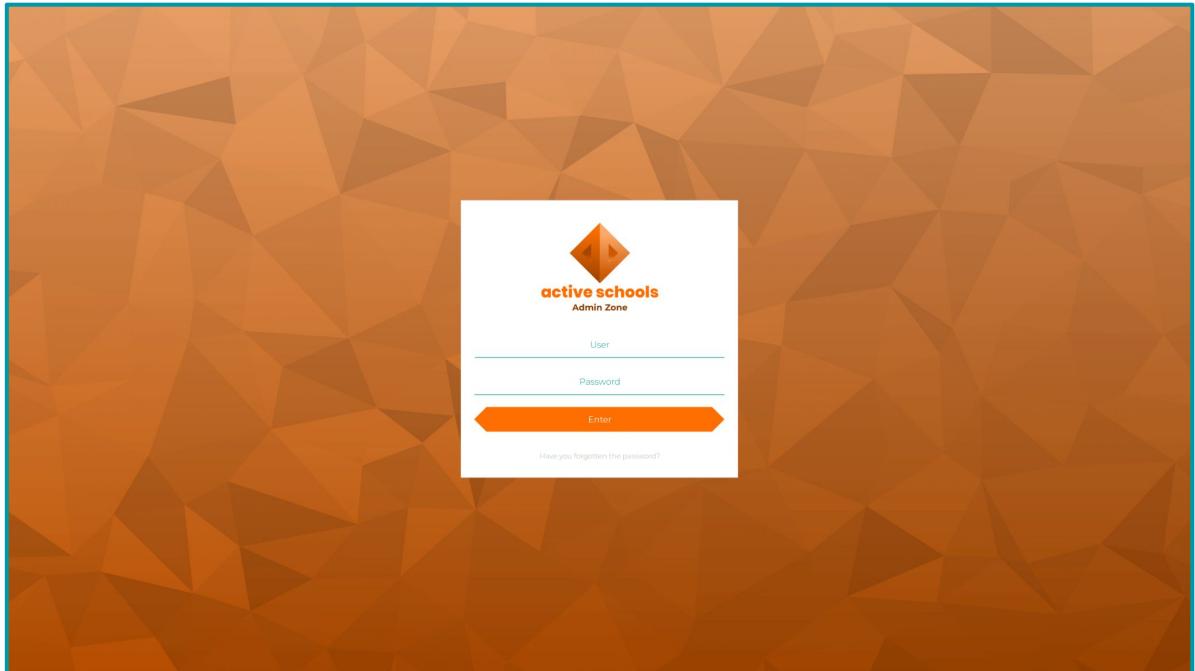

Admin Zone - Login

The user can log in to the administrative website by adding his/her:

- username
- password

and clicking on the "Login" button.

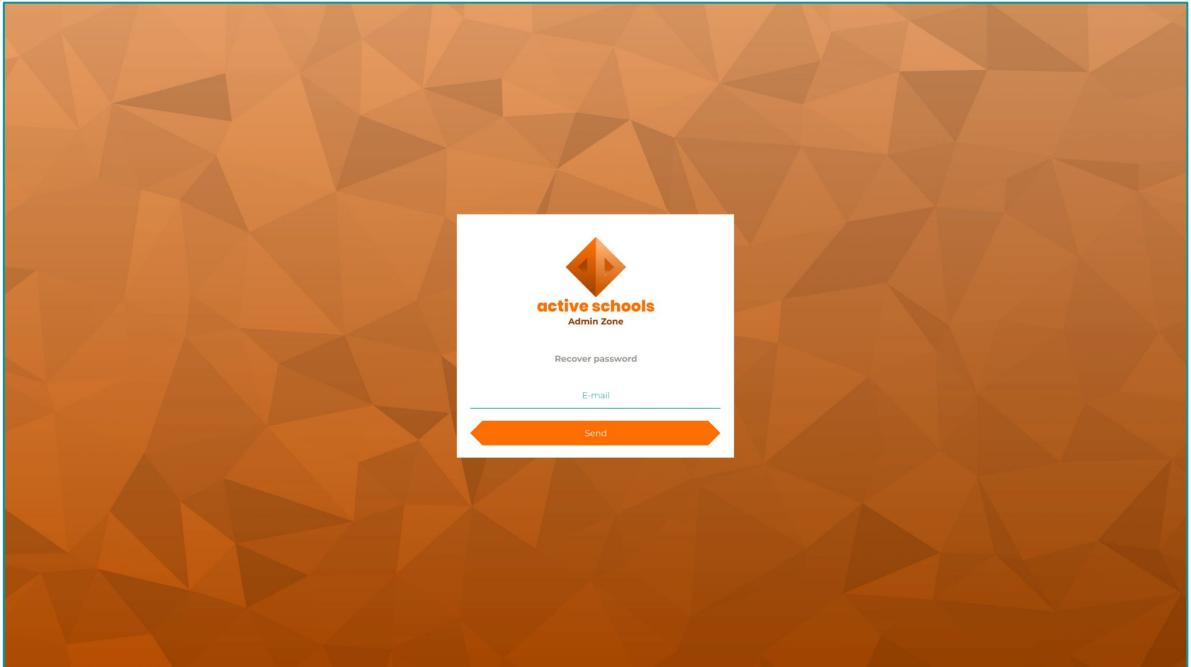

In case the user does not remember his/her password, he/she can recover it by clicking on the link "*Have you forgotten the password?*"

Admin Zone - Recover Password

The user has to add their email address to recover the password of their user.

Instructions on how to reset your account will be sent to your email address.

Admin Zone - Routes

The user can see all the routes that he has created in his account through a list of routes in table format.

The table consists of:

- Date of route creation.
- Name of the route.
- City where the route is located.
- Province.
- Country to which it belongs.
- Number of challenges contained in the route and options (edit route, delete route or view route).

The screenshot shows a table titled "Routes" with the following data:

Date	Name	City	Province	Country	Challenges	Options
10-08-2021 10:35	Route #1	Ceuti	Murcia	Spain	10	
09-08-2021 11:25	Route #2	Ceuti	Murcia	Spain	12	
08-08-2021 19:23	Route #3	Ceuti	Murcia	Spain	15	
05-08-2021 14:25	Route #4	Murcia	Murcia	Spain	21	
01-08-2021 21:55	Route #5	Ceuti	Murcia	Spain	18	
27-07-2021 08:12	Route #6	Murcia	Murcia	Spain	8	
23-07-2021 09:15	Route #7	Madrid	Madrid	Spain	16	
21-07-2021 22:49	Route #8	Molina de Segura	Murcia	Spain	12	
17-07-2021 17:10	Route #9	Molina de Segura	Murcia	Spain	12	
15-07-2021 12:21	Route #10	Madrid	Madrid	Spain	22	

Admin Zone - Expanded menu

The menu will expand in size when the user scrolls to the buttons on the left side of the website.

In this way, the user will be able to read the meaning of each icon.

The screenshot displays the Admin Zone interface. On the left, there is an orange sidebar with three main buttons: 'Routes' (with a map icon), 'Challenges' (with a plus sign icon), and 'Posts' (with a document icon). At the bottom of this sidebar is an 'Exit' button. To the right of the sidebar is a large white area containing a table titled 'Routes'. The table has columns for Date, Name, City, Province, Country, Challenges, and Options. There are 10 rows of data, each representing a route. The 'Options' column for each row contains four small colored icons: blue, red, green, and yellow. At the top right of the white area, there is a search bar with a magnifying glass icon and a 'New Route' button with a plus sign icon.

Date	Name	City	Province	Country	Challenges	Options
10-08-2021 10:35	Route #1	Ceuti	Murcia	Spain	10	
09-08-2021 11:25	Route #2	Ceuti	Murcia	Spain	12	
08-08-2021 19:23	Route #3	Ceuti	Murcia	Spain	15	
05-08-2021 14:25	Route #4	Murcia	Murcia	Spain	21	
01-08-2021 21:55	Route #5	Ceuti	Murcia	Spain	18

Admin Zone - Create new post

A drop-down menu will appear on the right-hand side of the website allowing the user to create and configure a new post.

This contains:

- Title.
- Content.
- Url of the image or upload image from file and country in which it will be displayed from the app.

The screenshot shows the 'Posts - New Post' section of the Admin Zone. On the left, there is a vertical sidebar with several orange diamond-shaped icons: a double arrow, a gear, a dollar sign, a plus sign, and a letter 'B'. The main content area has a header 'Posts - New Post' with a search bar and a close button. Below the header is a table listing 15 posts with columns for Date, Title, Image, Post Published (Countries), and Options. The table rows show various dates, titles like 'Title #1' through '#15', and countries like All, Spain, Greece, and Wales. To the right of the table is a large form for creating a new post. It includes fields for 'Title', 'Post Text' (with a rich text editor), 'External Image' (with a file input field), 'Upload Image' (with a file input field), 'Image URL' (with a text input field), and 'Select country where to publish' (with a dropdown menu). At the bottom right is a large orange button labeled 'Save New Post'.

Date	Title	Image	Post Published (Countries)	Options
05-08-2021 14:25	Title #1	https://activeschools.com...	All
